

# FAIR IS WORTH FIGHTING FOR

Green Party 

## Let's get Headingley cleaned up!

Far too many of the streets and gardens in the area are strewn with rubbish. Many streets have not been cleaned for months. This must change.

The Green Party wants to restore the gardens of Headingley. Many landlords either neglect the gardens of their properties or simply concrete them over to make an urban desert. We want to regulate the private rented sector so that Headingley is once again a green and pleasant place in which to live. Greens also want to increase the number of public green places and Pocket parks.

## Transition Headingley

One of the major achievements of the two existing Green Party councillors in Leeds has been the introduction of an insulation and solar power scheme. This means putting solar panels onto council houses and public buildings. The money received from the national grid is then used to fund better insulation. The scheme was originally developed by Green councillors in Kirklees and later imported to Leeds. We believe the scheme should be substantially expanded.

## Stricter planning

Greens understand that people in Headingley feel that planning permission for more apartments is given too readily. We know that there are around 5000 empty rooms in the ward and that new apartment buildings are not needed. We will ensure that guidelines are strictly adhered to.

## Better transport

Traffic is a major problem in central Headingley. We will encourage the use of public transport by keeping bus fares as low as possible. We will also encourage cycling by making better provisions for cyclists. This could be by making physically separate cycle lanes to make cycling safer.

## Against the cuts

The Green Party will do everything we can to limit the impact of Tory/LibDem spending cuts. We believe these cuts are unnecessary and driven by Tory ideology.
